EDUCATION

Thiagarajar College of Engineering

BE CSE(AI & ML)

CGPA: 8.60

Madurai

2024 – 2028

Devasakayam Matriculation Higher Secondary School

Class 12

Percentage: 93.5%

Madurai

2023 – 2024

AREA OF INTEREST

Full Stack Web Development

Open Source Contribution

Machine Learning

Cybersecurity

Cloud Computing

DevOps

TECHNICAL SKILLS

- **Languages:** Python, C, Java, JavaScript
- **Frontend:** HTML, CSS, React.js
- **Backend:** Node.js, Express.js, Flask
- **Databases:** MySQL, MongoDB, Firebase
- **Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

AQRO Integrated Sanitation System — React.js, Node.js, Firebase, Vite

Feb 2026

Team Project

- Developed a civic-tech web platform that enables citizens to report waste locations using Google Maps API for accurate geolocation tracking.
- Implemented a React.js frontend with Firebase real-time database to store and manage complaint data efficiently.
- Integrated AI-based complaint categorization and a token-based leaderboard system to encourage community participation.

TCE-Connect: A Centralized Campus Event Management Platform — React.js, Node.js, Express.js, MongoDB, JWT, Vercel, Render

Nov 2025

Team Project

- Developed a full-stack web platform for centralized campus event management and student participation tracking.
- Implemented secure REST APIs with Node.js and Express.js, using JWT authentication for user login and access control.
- Designed a React.js frontend with MongoDB backend, and deployed the application on Vercel and Render.

Intelligent Lab Computer Utilization and Allocation System — python (Flask), React.js, MySQL, Pandas, Scikit-learn, REST APIs, System Monitoring Agent

Oct 2025

Team Project

- Built a lab monitoring system to track real-time computer usage and availability in campus laboratories.
- Developed backend services using Flask and MySQL to store system activity logs and historical usage data.
- Applied Pandas and Scikit-learn to analyze usage patterns and created a React.js dashboard to visualize lab utilization.

PROFESSIONAL EXPERIENCE

Tarcin Robotic LLP

Software Development Intern

Madurai

June 2025 – July 2025

- Developed and tested backend modules for robotics software systems using collaborative Git workflows
- Debugged and optimized application performance during testing phases
- Collaborated with development team using Git-based workflows
- Participated in code reviews and feature implementation

CERTIFICATIONS

- **Developing AI Applications with Python and Flask** – (IBM / Coursera)
- **Machine Learning Introduction for Everyone** – (IBM / Coursera)
- **Generative AI for Everyone** – (DeepLearning.AI / Coursera)
- **Python for Data Science** – (NPTEL / Swayam)

LEADERSHIP & ACTIVITIES

- **Youth Red Cross (YRC) – Volunteer**
- Organized and participated in social service initiatives and awareness campaigns
- Coordinated volunteer teams during college community outreach programs
